

CAUGHT THE CROOK.

Bank Burglar Tangney Under Arrest in New Orleans.

Detective O'Brien Sent to Bring Him to New York.

He Took Part in the Bumbling Robbery at Pawling.

Inspector McLaughlin has received a telegram from the Chief of Police of New Orleans notifying him of the arrest of Patrick Tangney, a notorious crook, and this morning Detective-Sergeant John J. O'Brien started for that city to bring the prisoner to New York.

Tangney has a reputation of being one of the most dangerous crooks of recent times, and one of the cleverest with whom the police have had to deal since the days of "Jimmy" Hope. He combined the inventive talent of "Jimmy" Hope with skill in execution, and he became famous among crooks as a brilliant thief.

Besides being an expert pickpocket, he was a skilled bank robber, and in many of the big hauls that have been made in various cities during the last few years the police were certain that they detected his handiwork, but were unable nevertheless to trace the crime directly to him. He was arrested in this line was performed about a year ago at Pawling, N. Y. It was a bungling job, and not only was the bank opened, but the whole front of the bank building was blown out.

Tangney and his confederates got away with a large sum of money and valuable bonds, but their identity was discovered and they were indicted for the robbery.

He was subsequently arrested here in company with Burke and Edlie Kewler, Louis Manilla, an actor of 53 Grand avenue, Brooklyn, of a gold watch and chain on a Grand street car. An officer tried to arrest them at the time, but Tangney pulled his gun and got away. Detective O'Brien arrested him after they were admitted to bail and left the State.

Hurly was subsequently arrested in Gloucester, Mass. He was brought back and sentenced to two and a half years in prison, on his plea of guilty, by Recorder Smyth.

Tangney was not heard of until he was arrested a few days ago in New Orleans for picking pockets.

The bondsmen of the two crooks were Louis Schaeffer, of 18 Suffolk street, Edlie Kewler, who participated in the Pawling bank robbery, and Jack Schaeffer and represented himself to the proprietor of a saloon at Chatham square. He showed him about the place and declared that if he went on the bonds he, Burke, would be responsible. The moment Tangney and Hurly were released they fled the city and the bonds were declared forfeited.

Jack Welch, Burke and Edlie Kewler, members of Tangney's gang of safe-crackers, are all now doing time.

Inspector McLaughlin may find Tangney over to the Pawling authorities.

Derrick Fell on Him.

John Smith, twenty years old, of 44 James street, had his left leg broken this morning. He was working, with a dozen other men, coating the steamship "Pawling," at the foot of West Twenty-fourth street, when a derrick fell on him.

TRIED TO SELL A HIRED RIG.

Rosenberg Thought He Bought a Horse and Wagon While Drunk.

Louis Rosenberg, aged thirty, who gave his residence as "Lawn South," was a prisoner in Yorkville Court this morning, charged with stealing a horse and wagon from Stablesman Van Houten, of Nyack, N. Y. Rosenberg says he is a dry-goods merchant, and that while in New York he stops at 40 Chrystie street.

He came here a week ago, and last Saturday went to Nyack. He hired the horse and wagon from Van Houten and started out with a party of friends. They all drank heavily, he says, and continued their drive until they reached New York.

Rosenberg then took the rig to the sales stables at Sixty-first street and First avenue, where he left it to be sold. In the mean time Van Houten notified the New York police, and Detective Weller, of the East Sixty-seventh street station, located the store property at the sales stables, and when Rosenberg called there yesterday to get the proceeds of the sale, he was arrested. In court Rosenberg said that he was so drunk on Saturday that he did not know where the horse and wagon was, and concluded that he had paid for the rig. He was held for examination.

HER HUSBAND MISSING.

Mrs. Feltman Thinks He Has Deserted His Family.

Sarah Feltman, of 49 Attorney street, called at Police Headquarters this morning and reported that her husband, Max Feltman, has been missing since Thursday morning.

He was employed as a driver for a soda water firm in East Twelfth street. He drew \$20 previous to leaving, and his wife thinks he has deserted her and their three small children, the youngest being barely two years old.

She is penniless and without food for herself or children. The police advised her to locate her husband and then get a warrant for his arrest.

GOLD, WATER AND GAS.

Combination "Find" Results from Digging an Artesian Well.

(By Associated Press.) EDGEHILL, N. D., May 18.—The artesian well here in which water was struck last Monday morning is throwing an immense stream intermixed with beach sand, pieces of rock quartz, wood, lignite coal and other specimens. It was accidentally discovered that the water was heavily surcharged by gas, and it was with difficulty extinguished.

A six-inch connecting pipe was then run outside, and the gas can now be lighted and extinguished at will. In the lateral pipe the water occupies the under half, while the gas is in the upper, and, when lit, the singular spectacle is presented of fire burning on water, as the flames extend on the stream about three feet from the end of the pipe.

The well is about 1,300 feet deep. A man dug out of the sand in front of where the water empties a piece of gold bearing quartz about half the size of a man's doubled fist, that contained a large amount of gold, some particles being larger than the lead in a common pencil. There is great excitement here.

EXPLOSION HURTS FIVE MEN.

Cupola of a Buffalo Company's Foundry Wrecked.

(By Associated Press.) BUFFALO, May 18.—A serious explosion occurred in the cupola of the Buffalo School Furniture Company's foundry yesterday afternoon, and five moulder—John Schneider, Fred Besser, Samuel Henry, Fred Orge and George Schneider—were badly hurt. About seventy-five men were working in the foundry at the time, and great confusion followed the shock.

The molten iron was thrown about the foundry, and the men named were both cut and burned by the flying metal. They were taken to Flitch Hospital. All of the injured men are married except one.

The metal used by the Company is mostly scrap iron, and many think that some of it must have been charged with some explosive material. One man is so badly injured that he will die. The explosion completely wrecked the cupola and damaged the foundry.

SMOKER STARTED THE FIRE.

Boy Saw a Baseball Spectator Drop a Match Into Shavings.

(By Associated Press.) BOSTON, May 18.—Investigation proves that the big fire of Tuesday was due to the carelessness of a spectator on the baseball ground "bleachers," who thoughtlessly dropped a blazing match into some shavings under the seats after lighting a cigar.

Some brilliant play attracted the boy's attention just then and he did not notice the fire until he felt the heat. He then notified a policeman, but the police spread so rapidly it could not be handled with the facilities at hand.

Will Strike If Scale Isn't Signed.

(By Associated Press.) CLEVELAND, May 18.—President M. M. Garland of the Amalgamated Association, speaking of the probability of a strike of iron and steel workers, said today that judging from the policy of the past it will be pretty safe to conclude that all iron workers refuse to sign the scale there will be a National strike.
